

DONKERLIG
DARKLIGHT

IN MEMORY OF YOU

Beauty dressed her in all its glory. She's dressed so perfectly
She shines like lights on water for all to see
She unveils her body slowly, reveals a tattoo to me.
It's where love left a permanent mark for all to see.
This disease came between us, she says it took away.
The most beautiful love life was taken away.

In memory of you, the one she most adored.
To her I'll be true, in everything I do.
Forever and ever in love... with you.

I will never take for granted the silly little things she'll do.
I will treasure every moment just like you would do.
She's the one that I want to be with even if it takes my life.
She's the one that I want to be with all my life.
And the more that I learn from her the more I wanna be.
The love she was feeling, the same love for me.

In memory of you, the one she most adored.
To her I'll be true, in everything I do.
Forever and ever...

If I could bring him back I would so that you could,
Feel happiness just like you should.
If I could bring him back I would so that you could,
Could be complete, just like you should.
You should, you should.

In memory of you, the one she most adored.
To her I'll be true, I swear.
In memory of you, the one she most adored.
To her I'll be true, in everything I do.
Forever and ever in love...
